

# A Quick Guide to Starting Elemental & Keto-Elemental Nutrition

## 1. What to expect before and during the elemental diet (ED) regime:

- Despite the high success rate of eradicating SIBO (80-84%), **elemental diet is NOT for everybody.**
- **Palatability** is one of the main obstacles.
- **The mundane nature** of the treatment.
- **Weight loss** may happen if daily caloric requirement (i.e. 1800-2000 kcal) is not met
- **Herxheimer reaction (aka ‘die-off’ reaction)** may occur during the treatment. Common symptoms may include headache, chill, fatigue, muscle ache, low-grade fever, hypotension, and anxiety.
- **Decrease in stool volume/frequency** due to the low-residue nature (i.e. no fiber) of ED.

## 2. Helpful Tips to Support Patients while on Elemental/Keto-Elemental Nutrition:

- **Prepare the patients with realistic expectation of the taste.** Never expect them to be delicious. Ask the patients to determine if the flavor is acceptable or not.
- **Cold/iced water** may improve the palatability for the sweet flavors while **warm/hot water** may help with the savory flavors.
- **Sip the ED slowly over 30-45 minutes**, especially the regular Elemental Nutrition, to help minimize the symptoms associated with blood sugar spikes (e.g. nausea, headache, fatigue, thirst, irritability).
- **ED can be accompanied by intermittent fasting** (e.g. 16-8 restricted feeding); this may help with the compliance and provide the added benefit of promoting the migrating motor complex (MCC) in SIBO cases.
- Help patients see ED as a **break for their body** (i.e. less digestive load, reduced inflammation) **and mind** (i.e. less anxiety associated with symptoms or food triggers).
- **Gather support from family and friends.** Let them know this is what you are doing to get better and their continued encouragement is appreciated.
- **Antioxidants/anti-inflammatories and liver support**, starting 2-3 days prior to and continuing throughout the ED treatment, may help prevent or reduce the severity and duration of the ‘die-off’ symptoms.
- **Magnesium oxide/citrate (e.g. Mg-Lax)** may help if constipation is an issue.
- **Transition patients into ED** by utilizing low FODMAP food guide for one meal for the first 1-2 days, if necessary.

## 3. Always try the sample packs first.

Pick one or more flavors that are acceptable to the patients. Picking more than one flavor can help provide a sense of variety during the treatment.

Practitioners are also encouraged to try the samples before prescribing.

## 4. Vita Aid will provide clinics with FREE samples\* upon request.

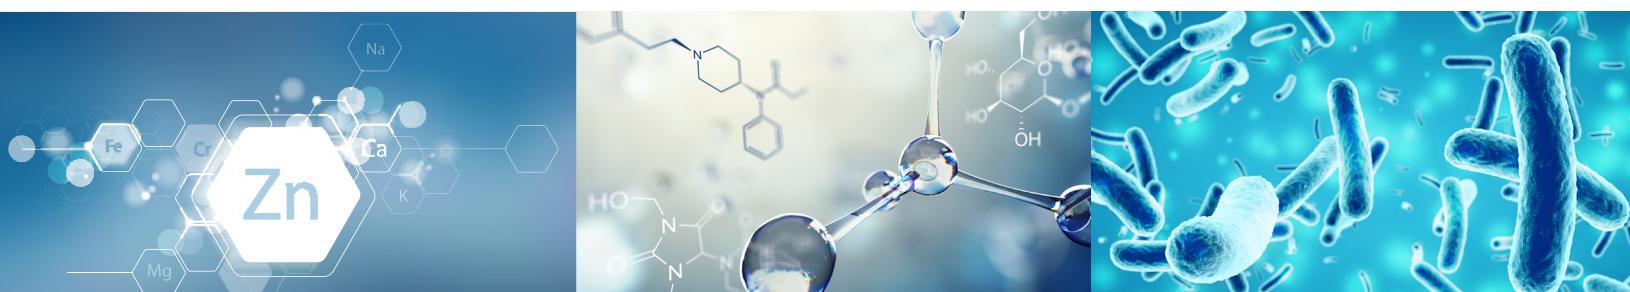

\*A limit of 3 packs per flavor with each request (quantities exceeding the limit can be arranged with your regional sales manager). Free shipping if the samples are accompanied by a paid order; otherwise, a \$12.50 flat-rate shipping fee will apply.

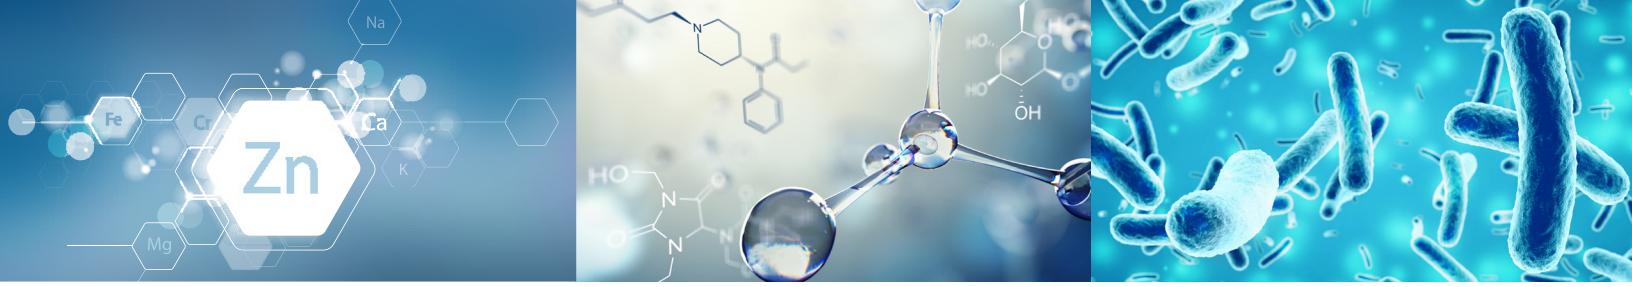

## 5. May consider supplying patients with 1-week of Elemental/Keto-Elemental Nutrition at a time

in case the patient needs to switch flavor or treatment.

## 6. Please contact your regional sales manager if you need to make a return or an exchange for different a flavor.

Regular return policy applies.

## NUTRITION INFORMATION

Servings Size 2 Scoops  
9 or 27 servings per container

Amount Per Serving	Amount	DV*
<b>Elemental Nutrition</b>		
Total Calories	200 kcal	10%
Protein	10 g (40 kcal)	**
Total Carbohydrates	25 g (100 kcal)	**
Added Sugar 20 g		40%
Fats	6.7 g (60 kcal)	**
<b>Keto-Elemental Nutrition</b>		
Total Calories	204 kcal	10%
Protein	7.5 g (30 kcal)	**
Total Carbohydrates	8.5 g (34 kcal)	**
Sugar 0 g		0%
Fats	15.6 g (140 kcal)	**
Vitamin A (from vitamin A palmitate) (850 IU)	255 mcg RAE	28%
Vitamin C (ascorbic acid)	20 mg	22%
Vitamin D3 (cholecalciferol) (100 IU)	2.5 mcg	13%
Vitamin E (d-alpha tocopheryl acetate) (10 IU)	6.7 mg AT	45%
Vitamin K2 (menaquinone-7)	10 mcg	8%
Vitamin B1 (from thiamine hydrochloride)	0.5 mg	42%
Vitamin B2 (from riboflavin 5'-phosphate, sodium)	0.5 mg	38%
Vitamin B3 (niacinamide)	4 mg	25%
Vitamin B6 (from pyridoxal 5'-phosphate, calcium)	1 mg	59%
Folate (from L-5-MTHF, calcium)	60 mcg	15%
Vitamin B12 (methylcobalamin)	1.5 mcg	63%
Biotin	50 mcg	167%
Vitamin B5 (from calcium d-pantothenate)	4 mg	80%
Calcium (from calcium bisglycinate)	85 mg	7%
Iron (from iron (II) bisglycinate)	2 mg	11%
Phosphorus (from potassium phosphate)	85 mg	7%
Iodine (from potassium iodide)	20 mcg	13%
Magnesium (from magnesium bisglycinate)	40 mg	10%
Zinc (from zinc gluconate)	2.5 mg	23%
Selenium (from selenium glycinate)	25 mcg	45%
Copper (from copper (II) bisglycinate)	150 mcg	17%
Manganese (from manganese (II) bisglycinate)	200 mcg	9%
Chromium (from chromium nicotinate glycinate)	15 mcg	43%
Molybdenum (from molybdenum (VI) bisglycinate)	10 mcg	22%
Choline (from choline bitartrate)	35 mg	**
L-Serine	200 mg	**

\*\* Daily value not established

MEDICAL FOOD INTENDED FOR USE UNDER MEDICAL SUPERVISION. Not intended for use in children.

### SUGGESTED USE

Thoroughly mix 2 scoopful (46 g of Elemental Nutrition; 35 g of Keto-Elemental Nutrition) in 6-8 oz. (178-236 mL) room temperature water. Additional water may be added to the mixture as desired. Once mixed, any product that is not consumed within 60 minutes should be refrigerated for a maximum of 24 hours, then shaken or stirred prior to consumption.

Contains no yeast, wheat, gluten, soy, dairy products, fructose, sucrose, lactose, artificial colors and flavors, or preservatives.

### OTHER INGREDIENTS

Medium chain triglycerides (from coconut), glucose, tapioca maltodextrin, natural chocolate/vanilla flavours, natural herbal flavours\*, sodium chloride\*, sodium copper chlorophyllin\*, lutein\*, glycine, taurine, L-alanine, L-arginine, L-cysteine, L-glutamine, L-histidine, L-leucine, L-lysine, L-methionine, L-proline, L-threonine, L-tryptophan, L-tyrosine, L-valine, L-aspartic acid, L-isoleucine, L-phenylalanine, L-carnitine

\* in Keto-Elemental Nutrition Only
